Consent to check Centrelink details

Send your documents as attachments to your email, not in the body of the email.

Send your complete application to
NMEC.rebates@health.vic.gov.au.

When do applications close?

31 December 2023.

What are the special conditions for firewood applications?

The fire must be the only source of fixed heating in the home. You need to complete a statutory declaration confirming this when first applying or if you change address.

What are the special conditions for generator fuel applications?

Your property must not be connected to the mains electricity grid. You need to complete a statutory declaration confirming this and that the invoices provided are for generator fuel.

What needs to be included on my invoices?

Your invoice needs to include all the following details:

- name and address of the business
- business ABN (if applicable)
- date of purchase

Yes, if you are not connected to the electricity network, any generator fuel costs can be claimed.

What is an embedded network?

Embedded networks are often used to provide utility services to retirement villages and caravan parks, apartment complexes and social housing developments.

Electricity is bought in bulk by the accommodation manager and sold on to residents. The network may be entirely managed by the accommodation manager, or by a company operating the network on their behalf.

I have lost my invoices

If you do not have invoices, you can ask your supplier for a statement listing your purchases in 2022. If they cannot provide a statement, you can send a statutory declaration stating the amount spent in 2022.

Can I make a second claim?

Yes, if you have made more purchases that would have made you eligible for a higher rebate if sent with your first claim. Your spending for both claims will be added, and a rebate for the difference between the total claim for the year, and your first claim, will be paid.

Second claims must be received by 31 December of 2023.
